

This Month's Feature Cafe Design - Bell Prairie School, Kansas City, MO

It's Cool to be an "Eco" School ... Like The Bell Prairie Elementary School

Dear Tacey,

These days our students are increasingly environmentally conscious, so The Artworks Shop has made it easy to join the green scene and it's hip to be an 'Eco' school.

Last month, we redesigned the Green Cafe at the Bell Prairie Elementary School in Kansas City, MO.

Food Service Director Kim Werning immediately noticed a positive effect on students, school staff and servers.

"Tacey and the staff at The Artworks Shop went out of their way to help us custom design a serving area in a brand new school, around a cafeteria name that was selected by students.

At our request, they also incorporated a nutrition message. They also did a great job in making it kid friendly and congruent with the look and theme of the rest of the school.

The quality of their work and materials is excellent. I highly recommend Tacey and her staff in designing artwork and signs for any school cafeteria."

~ Kim Werning, Food Service Director, North Kansas Schools

Contact The Artworks Shop today to join the Green Scene and transform your serving line into something your students and staff will be proud of.

Hope to hear from you soon!
