*Cheshire Connecticut has new Build-a-Tray Cafes !*

**Madeleine Diker** - Food Service Director of the Cheshire, CT Public Schools is proud of her new Cafes and the success of **The Build-aTray Program**, currently running in all her elementary schools.

**Madeleine says:** *"The Build a Tray Program* has worked out to be an easy to use, educational tool, that explains to students and staff alike what menu items are allowed for a reimbursable meal.

For the children it's the game of building a healthy lunch by filling in the empty spaces on the tray.

For my staff it's turned out to be a great assessment tool to check their understanding of offer

versus serve. Build a Tray will always be part of my in-service training on offer versus serve!

The Build-a-Tray Program  
is Interactive, Teaches Children to Make  
Healthy Choices & is Easy to Implement ....  
A Perfect Compliment to the Nation's Fitness & Wellness Programs in America Today
